DEVANY SHOWCASE · USER GUIDE

Teralta Movement Club GymFlow

Customer screen, back office and DevAny dashboard

Memberships, class booking with live capacity and QR check-in for a boutique studio.

demo-gymflow.devany.app

AT A GLANCE

What was built?

Boutique fitness studio · Poblenou, Barcelona. One DevAny app with two faces: the screen on the customer's phone and the business's back office.

Highlights

- Members book classes with live spots left, and full classes switch to an auto-promoting waitlist
- Personal QR pass: a front-desk scan checks you in and marks your class as attended
- Owner dashboard: KPIs, 28-day attendance, weekly schedule with rosters, members and revenue
- Expiry reminder automation and a goal-based AI weekly plan (demo sample output)

The demo and your copy

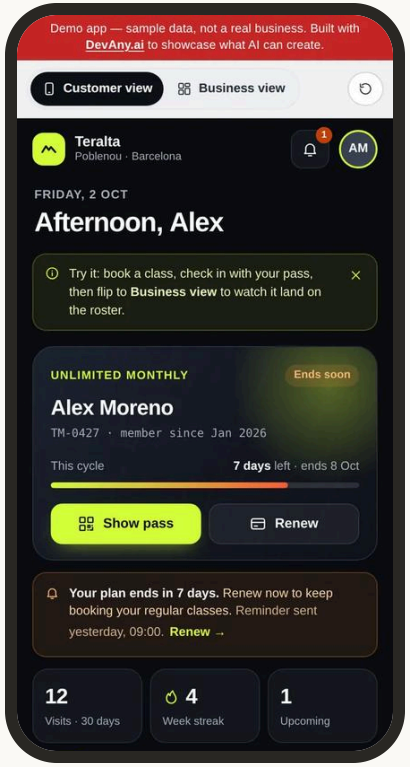

- The demo runs entirely in the browser: sample data is generated on the page, nothing is saved, and no AI or email is called.
- Your copy is a real DevAny app: records are stored and the back office opens with a staff sign-in.
- Customers use it from a link or QR code, with no account.

CUSTOMER VIEW

What the customer sees

Customers open the app from a link or QR code; no install or account needed.

- Book classes from a 7-day schedule with live spots left
- Full classes offer an auto-promoting waitlist instead of Book
- Personal QR pass; a simulated front-desk scan checks you in
- Membership card with days left; renew or switch plans (no charge)
- Goal-based AI weekly plan with a Book all 3 button (demo)

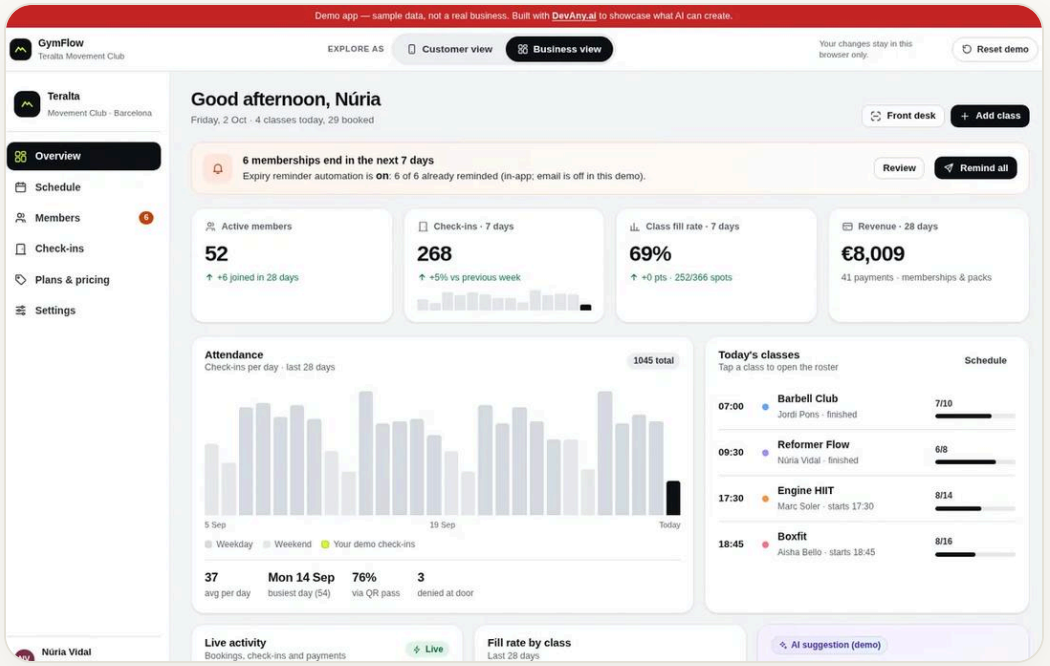

BACK OFFICE

What the business manages

The business view inside the app is where the owner and team work day to day.

- KPIs, 28-day attendance chart and today's classes with fill bars
- Week schedule; class rosters to change capacity, mark In/No-show, cancel
- 60 members with segments, freeze, +30 days and CSV export
- Desk check-in, daily door QR poster and scan log
- Plan prices, booking rules and an expiry reminder automation

TRY IT IN THE LIVE DEMO

See both screens work together

In the demo, the switch in the top bar moves between the customer and business views.

Try this

1. In Customer view, book a class from the Classes tab
2. Switch to Business view: it tops the live feed; open the roster and remove it
3. Switch back: My bookings shows Cancelled by studio

Demo address

`demo-gymflow.devany.app`

What you try in the demo is not saved; it resets when the page reloads.

OWNER DASHBOARD

Map of the DevAny dashboard

The owner runs the project from the “Manage” screen on devany.ai. The menu runs from daily work to technical settings.

- Overview

DAILY OPERATIONS

- App — live preview
- Staff view — admin mode
- Data — requests + content
- AI assistant
- Website features
- Users

GROW

- Analytics
- Campaigns
- Sharing
- Payments

APP SETTINGS

- Settings — SEO
- Email
- Domain
- Security

ADVANCED (COLLAPSED)

Actions · Integrations · API · Code · Logs

Staff view

Opens the app’s team screens from the dashboard without an account, on the real records. Admin-only screens such as settings and revenue need an Admin sign-in in the app.

Data

The app's records (orders, bookings, ratings…) are listed here; records can be added, edited and deleted.

Users

People who signed up in the app. Give each one Member, Staff or Admin; staff access is granted only here.

Advanced

Download the code as a ZIP, push to GitHub, version history and error logs. Collapsed by default.

IN YOUR OWN COPY

Back-office access, data and alerts

The demo’s Customer/Business switch exists only in the showcase. In your copy the back office is private and opens with a staff sign-in.

How to get in

1. Publish the app (the copy arrives as a draft)
2. Open the app, tap the staff/team sign-in link at the bottom and create an account
3. DevAny → Manage → **Users**: give yourself **Admin** and employees **Staff**
4. Sign in again in the app; the back office opens

There is no PIN and no automatic owner access.

Data and alerts

Customer records are stored in DevAny and shown in the back office and under Data. Lists closed to visitors: `members`

Every new record in these lists creates a dashboard alert and, while the app is live, a free email to you.

Email and AI

Emails to customers (confirmations, reminders) go out when the app’s email is on and the app is live; each uses a small amount of AI credit.

Weekly plan explanation for members (member-facing) and owner ideas. Runs for real when clicked and uses AI credit; in the demo the results are pre-made.

AFTER YOU COPY

Go-live checklist

The steps shown in the dashboard after copying. Price, text and image edits go live instantly and spend no credit.

1. Create your own account in the app, then give yourself the Admin role in the dashboard under Users
2. Give each coach and front-desk person the Staff role after they sign up
3. Set your class types, coaches and weekly timetable under Data → class_types and timetable
4. Set your currency and check plan prices in Plans & pricing
5. Print the door poster (Check-ins) so members can check themselves in
6. Replace the photos with your own
7. Clear the sample data in Settings before you open to real members

This app takes no online payments (customers pay at the venue and staff mark “Paid”), sends no real SMS (WhatsApp only opens a link) and does not sync with POS, hotel/clinic software, calendars or review sites.

FOR YOUR OWN BUSINESS

Copy this app to your account

“Copy to my account” on the showcase page brings the project into your account as a draft, with your business name, city and contact details.

How it works

1. Open `devany.ai/showcase/apps/gymflow`
2. Enter your business name, city, phone, WhatsApp and email
3. The project is created as a draft; clear the sample records in one tap from the dashboard
4. Edit texts, prices and images for your business, then publish

Copying uses no AI and spends no credit.

Plan to publish

PLAN	LIVE PROJECTS	DOMAIN
Free	No publishing, preview	—
Builder · $29/mo	1	Included
Pro · $79/mo	3	Included
Studio · $199/mo	10	Included + white label

Copying is available on paid plans. Every paid plan includes monthly AI credit equal to its price.

Teralta Movement Club is a fictional business: phone and address are demo placeholders, images are illustrative, and submissions do not reach a real business.
